SUMMARY

Java Full Stack Developer with hands-on experience in designing and developing scalable web applications using Java, Spring Boot, React.js, Hibernate, MongoDB, PostgreSQL, and Docker. Experienced in building secure RESTful APIs, real-time applications using WebSockets, and deploying production-ready applications. Hands-on experience with Docker, AWS (EC2, S3), and scalable cloud-native application development. Strong understanding of object-oriented programming (OOP), SOLID principles, Software Development Life Cycle (SDLC), microservices architecture, database design, and software engineering best practices. Passionate about building secure, high-performance, and scalable software solutions while continuously learning modern technologies and solving complex engineering problems.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript (ES6+), SQL.

Frontend: React.js, HTML5, CSS3, Bootstrap.

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate (ORM), JPA, JDBC, RESTful APIs, JWT Authentication, WebSockets

Databases: PostgreSQL, MongoDB, MySQL.

Architecture: MVC, Microservices, RESTful API Design.

State Management: Redux Toolkit.

DevOps & Tools: Docker, Maven, Kubernetes (Minikube), Jenkins (CI/CD), Postman, Git, GitHub.

Cloud: AWS (EC2, S3).

Infrastructure: Terraform, Ansible.

Operating Systems: Linux (Ubuntu), Shell Scripting.

PROFESSIONAL PRACTICE

- Follow clean coding practices, Agile development, Git-based version control, and technical documentation.
- Strong focus on performance optimization, problem-solving, and continuous learning.

PROJECTS

Hyloosec – Secure Real-time Chat Application

- Tech Stack:** React.js, Spring Boot, MongoDB, PostgreSQL, Docker, WebSockets.
- Built a secure real-time messaging platform with Spring Security, REST APIs, and RSA/AES encryption.
- Optimized WebSocket communication, reducing message latency by 30%, and containerized the application using Docker.
- Implemented secure authentication, encrypted private key generation, and advanced user security features.
- Link:** <https://www.hyloosec.online>

Finance Dashboard – Data Analytics & Visualization

- Tech Stack:** React.js, Node.js, Material UI, Recharts, Docker.
- Developed a financial analytics dashboard with interactive charts and REST API integration.
- Reduced Docker image size by 45% using multi-stage builds and integrated RESTful APIs.
- Link:** <https://neelratanpatel.github.io/finance-dashboard/>

TECHNICAL EXPERIENCE

Full Stack Developer (Hyloosec)

- Architected and deployed a secure Java Full Stack application using React.js and Spring Boot.
- Designed scalable RESTful APIs and optimized application performance.
- Developed reusable backend components following object-oriented programming and SOLID principles.
- Participated in end-to-end SDLC including requirement analysis, development, testing, deployment, and maintenance.
- Experienced in debugging and troubleshooting production issues across multiple environments.
- Improved SEO using SSR concepts and metadata optimization.

EDUCATION

Master of Computer Applications (2024–2026)
Microtek College of Management & Technology

Bachelor of Computer Applications (2021–2024)
Rajarshi School of Management & Technology | 67.5%

CERTIFICATIONS

- Frontend Developer (React) – HackerRank
